Review 1:

Great

Review 2:

Not very good

Review 3:

Lorenzo Carcaterra's account of the lives of his parents, locked in a shockingly violent marriage and the effects of lifelong exposure to mad chaos on their child is gripping and probably recurring in many families today. The book is bold and honest--no clear happy ending provided, but some redemption offered. Characters are raw. Their stories propel the reader from loathing to sympathy and back again. Complex and thought-provoking.

Review 4:

I loved this book!!! I also have loved Carcaterra`s other books but this one and Sleepers are my favorites. What a story! What a piece of work, his father was and I felt so sorry for his mother, not having a clue who she'd married until it was too late.
