What others say about this ebook:

**Review 1:**

Lynn Kurland writes some really good hysterical (not really historical) fantasy (with time travel and ghosts) fiction. Some of her descriptions are of violent actions, nothing graphic, nothing gory, mostly punches and the like. There is some PG type of sensual not necessarily sexual contacts. All in all, great light, romantic, escapist, fiction. This is a set of short stories and add to the canon of Lynn Kurland's other books.

**Review 2:**

Good book

**Review 3:**

From the first book of Lynn Kurland's that I read to each succeeding book, I have enjoyed each and every one. This one was no exception. She is a very good author. Each story may contain some of the same characters, but each story is different and very interesting.

**Review 4:**

Everything arrived on time and in better condition than the seller stated. I would absolutely do business with this seller again.

**Review 5:**

I was a bit disappointed in this book. While the story lines were cute they seem to end quiet suddenly for me. I would of liked to have seen maybe less writers and longer stories or maybe 20 pages more per story. I mostly bought the book for Lynn Kurland so I could add it to the list of her other books I have. It after all contains the story of 1 of the families she so often writes about.
