## Cyberbullying: Deal with it and Ctrl Alt Delete it (Lorimer Deal With It)

Do you race home to log in on your computer and chat? But what can you do when that user comes on, the user that won't go away and is getting nastier by the day? Now it seems you can't go to any of your favourite sites without finding something nasty posted about you. This volume in the "De

## Love's Rescue: A Novel (Keys of Promise)

When her mother dies, Elizabeth Benjamin heads home to Key West, determined to transform herself into the perfect Southern belle her parents always wished her to be. But nothing goes according to plan. Her crippled brother resents her, the servants do not obey her, and Rourke O'Malley, the dashing man she vowed to forgive, refuses to relinquish his hold on her heart. Worst of all, it becomes painfully obvious that her father is not the man he appears to be.

As family secrets come to light, Elizabeth is faced with a difficult choice: to perform her duty and abandon her dreams, or to leave her life of privilege behind to chase the man her father sees as little better than a pirate.

From the first emotional page, author Christine Johnson throws you into a world of impossible choices, hidden desires, and heart-melting romance in the steamy South.

CHRISTINE JOHNSON is the author of several books for Scribner, Harlequin, and Love Inspired and has been twice named a finalist for Romance Writers of America's Golden Heart award. When not writing, she loves to hike and explore God's majestic creation. She and her husband, a Great Lakes ship pilot, split their time between northern Michigan and the Florida Keys. **What others say about this ebook:**

**Review 1:**

don't bother buying this there isn't much detail and you can get just as much info off of free surfing maps once you are there. Sorry I bought any of these Nicaragua books as they were all pretty useless.

**Review 2:**

Would it really have been too much effort to proof read it once? I have never in my life seen a book with so many glaring mistakes. Entire paragraphs cut and pasted verbatim, missing words, spelling errors. I'd be embarrassed to have my name on this.

**Review 3:**

I mainly used this book as a comedic prop. Yes, it's that bad. At first I agreed with one of the other reviews that said kudos to the author for having the only surfing Nicaragua guide book. But when you get to the pages - yes, pages - on Panga Drops, Iguana Beach Condo and Rancho Santana, you may start to notice the references to "our" private drive. This, combined with the obvious plugs for these places and the ridiculously detailed driving instructions (from any direction) lead one to believe the author has quite an invested interest. As a comparison, the entire entry for Lance's Left says, "Look for it. Ask around."

This guide swings from giving directions to the break, a rating of skill required to safely surf there, type of break, and places to stay close by, to merely the name, "ask a local" for directions and "duis eget arcu. Vestibulum ante ipsum primis" etc for info about your hotel.

In places it seems to indicate one break is an easy 30 minute walk down the beach when you're actually in a cove. If you wanted to hike over the hill you could do so, but I was dissuaded after a chat with an ex-pat. He had been a Navy SEAL for 10 years and now lived in Nica, spending all his time surfing. He tried the hike once and got so freaked out he'll never even consider it again, no matter how good the waves are. There really are bandits in the hills here.

This guide is not utterly devoid of value - it does have some good info and gives you a starting place to find out more about quite a number of breaks (mostly by asking the locals) - just don't base your trip on it.

**Review 4:**

I got this book from Durham Books LLC. They sent me the cover of the book with pictures of edible flowers on the inside. Never again. It is also very tiny, its the size of a pamphlet.

**Review 5:**

This book was a waste of time, not worth the expensive price at all. Save your time and just buy a lonely planet, you will receive just as much surf info as well as other useful information. All of that for a cheaper price also.
