The Penguin Historical Atlas of Ancient Egypt (Hist Atlas)

From its humble origins as a cluster of rival chiefdoms along the banks of the Nile, ancient Egypt rose to become one of the most advanced civilizations of its time. This atlas traces its turbulent history and remarkable cultural development, from the founding of Memphis around 5000 BC, through the territorial expansion and flourishing trade of the 'age of empire', to Greek domination and ultimate collapse. Political rivalries are charted through the successive dynasties, from the strife of the intermediate periods to the golden ages of prosperity and artistic glory under Akhenaten, Tutankhamun and Ramesses II. The latest archaeological evidence is used to cast new light on the

Making Sense of Quantum Mechanics

This book explains, in simple terms, with a minimum of mathematics, why things can appear to be in two places at the same time, why correlations between simultaneous events occurring far apart cannot be explained by local mechanisms, and why, nevertheless, th

Hermann Hesse: Between the Perils of Politics and the Allure of the Orient (Berkeley Insights in Linguistics and Semiotics)

Moral conviction, not political inclination, determined Hermann Hesse's participation in German sociopolitical matters. The belief that artists, the ever-alert guardians of human values and cultural heritage, were society's admonishing conscience, determined Hesse's sociopoliti

Toward a Natural Forest: The Forest Service in Transition (A Memoir)

Jim Furnish joined the U.S. Forest Service in 1965, enthusiastic and naive, proud to be part of such a storied and accomplished agency. Nothing could have prepared him for the crisis that would soon rock the agency to its foundation, as a burgeoning environmental movement challenged the Forest Serv

An Advanced Introduction to Calculus-Based Physics (Mechanics) (Physics with Calculus Book 1)

What others say about this ebook:

Review 1:

Bought this for my 6th graders Egyptology assignment in History. It was very thorough and was great information to have.

Review 2:

The text of this atlas contains too many typographical errors, for example, on page 20 the date of climate changes in northeast Africa is given as 700 BC when it should be 7,000 BC! The book should have had better editing. Also, the bibliography is not very helpful. However, the maps are excellent. The book is worth buying just for the maps.

Review 3:

Another awesome book, and great service

Review 4:

The writing is awfully dry, but enjoyed the maps.

Review 5:

great
