What others say about this ebook:

Review 1:

Very nice little postcards to color with interesting designs. Most are well-done, but several are a little too small for me and I had to buy specially-tipped pens to keep inside the lines. There is a nice variety of 25 selections which would keep any colorist busy for several weeks! The cardstock is of excellent quality with absolutely no bleed-through, although I do tear out the pictures individually as I color them. Coloring these postcards is very relaxing and meditative for me, and I highly recommend it to anyone who enjoys coloring. I use ultra-fine tipped Sharpie markers, but I think the pictures would be receptive to just about anything you'd like to create with. The only reason for 4 stars is the very tiny design in many of the pictures which do make it hard to see, at least with my old eyes! Still well worth purchasing.

Review 2:

I love this relaxing adult coloring book. The designs are intricate, and the color possibilities are endless. I am finding that Cra-Z-Art colored pencils work well on this kind of paper stock. My grand daughters have coloring sessions with me, and we all enjoy some nice conversations about what they want to talk about. They are 8 and under. I am so glad I found this book, and have been complimented repeatedly for the completed pictures I have done. Had it not been for the wonderful pen and ink artistry, I would not have been so attracted to this book. One of the great things about it is that it does not have thick black lining in the drawings. I am not attracted to those kind of prints. I will definitely buy more Flame Tree Studio books in the future.
