Making Spatial Decisions Using GIS and Lidar: A Workbook

The third book in the Making Spatial Decisions series, Making Spatial Decisions Using GIS and Lidar focuses on scenario-based problem solving using an integrated workflow in ArcGIS® for Desktop. The scenarios in Making Spatial Decisions Using GIS and Lidar feature lidar as the primary data source and lidar-related analysis as the primary skill focus. Lidar is a powerful, and increasingly popular, data source used to create elevation and terrain models with very high accuracy. Students and self-learners can use the exercises in this book to develop their GIS skills. Downloadable data and access to a 180-day free trial of ArcGIS are available on the Esri Press "Book Resources" w

Media and Communication Research Methods: An Introduction to Qualitative and Quantitative Approaches

Arthur Asa Berger employs his signature style - a practical focus, the use of numerous examples, a step-by-step approach, and humor - in his latest book, Media and Communication Research Methods. Combining both qualitative and quantitative research methods, this introductory text covers the topics

Unleash the Beast: A Journey to Rediscover the Greatness Within

At his heaviest, Mark Rucker weighed 386 pounds. Despite his efforts, he never managed to lose weight and keep it off, instead falling back into old habits. One fateful afternoon, he visited a theme park with his family and found he couldn't fit on the roller coasters--and couldn't share that exper

Revolt: An Archaeological History of Pueblo Resistance and Revitalization in 17th Century New Mexico (The Archaeology of Colonialism in Native North America)

Published in cooperation with the William P. Clements Center for Southwest Studies, Southern Methodist University. The Pueblo Revolt of 1680 is the most renowned colonial uprisings in the history of the American Southwest. Traditional text-based accounts tend to focus on the revolt and the
