European Politics

European Politics surveys the history, institutions, and issues that are essential for understanding contemporary European politics. Exploring a central question-"What is Europe?", this text's thematic approach helps students compare politics in individual countries and see the political big picture in the region. European Politics examines not only countries already in the European Union but also those eligible to join to give students the most comprehensive picture of Europe's evolution in a globalized world.

Bark to the Future (An Alpine Grove Romantic Comedy) (Volume 5)

Growing up in the small town of Alpine Grove, Beth Connelly was the weird, shy kid who hid in the back room of her mother's bookstore. But all that study time led to being the class of 1985 valedictorian, a college scholarship, and a dream job offer in Arizona. Ten years later, her life is almost p

The Fallen Colossus

The Penn Central debacle has much to teach investors, businessmen, and financiers about giant corporations caught in economic recessions or industries suffering a slow decline.

The Wisdom of Forgiveness

This is the extraordinary documentation of the evolving friendship between the Dalai Lama and the man who followed him across Ireland and Eastern Europe, on a pilgrimage to India's holy sites, and through the Dalai Lama's near fatal illness. On this remarkable journey Victor Chan was awarded an ins

Arizona Recreation Map

The Arizona Recreation Map is the ideal planning tool for everything outdoors, from rugged backcountry adventure to a nearby day-hike. It's the only New Arizona folded map that benefits from Benchmark's renowned field-checking, proven accuracy, and cartographic excellence. The Arizona Recreation M

What others say about this ebook:

Review 1:

Takes you through the European Politics scene. Kubicek knows his chops and he remains unbiased throughout the book.. This book is required reading for me, but I think anyone interested in the topic would find it an enjoyable read.

Review 2:

I have been teaching an upper level undergraduate course on European politics since 2008 and I prefer this textbook to all of the other texts I have tried on this topic. The other textbooks I have used in this class present facts about the region, but Kubicek's book includes many interesting discussion questions that help to build a sense of suspense and heightens student engagement.

It is organized by topic and covers a good variety of important topics:

- Historical overview (People born after the fall of the Berlin Wall do not usually know much about the Cold War history of Europe. Kubicek includes both sides of the iron curtain in his overview.)
- European Union (two chapters: development, institutions)
- Political institutions (Four chapters: legislative, executive, legal/judicial, political parties)
- Political culture
- Economic issues/welfare state
- Security
- Multiculturalism and immigration

The EU is covered early so the text can demonstrate the effects of European integration on the domestic institutions and society.

There are very short case studies (1-2 pages) to illustrate important topics. To develop a deeper understanding of particular cases it will be necessary to supplement with longer case studies from another source.

The kindle version works well on my iPad but my elderly kindle can't read it.
